

# ABDOMINAL CANCERS ALLIANCE

## Awareness

**Our Mission** To empower and connect the abdominal cancers community to save and improve lives.

**Our Vision** A future where every abdominal cancer patient receives appropriate and timely care throughout their cancer journey.

**We are patients, caregivers, clinicians, organizations, and allies.**

We are committed to saving lives and improving quality of life by connecting patients, survivors, and caregivers to the information and support that they need in their fight against peritoneal surface malignancies, including rare and advanced gastrointestinal and gynecologic cancers. By raising awareness with the public and clinicians, making connections to resources and care, and guiding patient and caregiver navigation throughout the cancer journey, we aim to see every patient reach the care they need.

## Connection

## Navigation

The Abdominal Cancers Alliance is an initiative of  
Partners for Cancer Care and Prevention  
501(c)(3) nonprofit EIN: 45-1605551

# Connections that Matter

## Cancer is tough. We're here to help.

### Library of Resources

Information that patients and caregivers need to be informed about their diagnosis and what to do about it, all produced and vetted by medical professionals alongside patients and caregivers who have already gone through treatment.

### Patient and Caregiver Network

This program connects patients and caregivers to buddies who have had similar experiences, providing support through all phases of the cancer journey: from detection and diagnosis through treatment and survivorship, with a focus on patients undergoing CRS/HIPEC.

### Partner Organizations

We are proud to work alongside partners serving this community and supporting those facing advanced abdominal cancers. We all serve patients and caregivers in complementary ways, but together we form a web of support and connection.

### Allies in Action

From raising awareness, to connecting our community, to helping others navigate the cancer journey, there are lots of ways we can work together to realize a better future for everyone facing abdominal cancers.

Get connected.

Get involved.
